Soldering Profile

Number of reflow process shall be 2 times or less

- 1. Manual soldering temperature: Max 320°C for 3 Sec.
- Can be second manual soldering, but must be cooling before second manual soldering, In order to guarantee
 the soldered area is to be smoothly covered with soldering, can delay the soldering time, but not to exceed 20s
 every pad, because if that, the pad will be damaged.
- 3. The minimum distance of display seating plan to soldering bath is 1.6mm.
